

LOS ANGELES ASTRONOMICAL SOCIETY, INC.

MONTHLY BULLETIN FOR OCTOBER 1974

GENERAL MEETING

The next general meeting will be held Monday Oct. 14 at 7:45 pm at the California Museum of Science and Industry, 700 State Dr. Exposition Park. Our speaker will be Orien Ernst on astrophotography. Mr. Ernst, a long time member of our society usually wins first place in astro work. Not only does he design scopes, pour castings, machine the parts but was one of the first persons in this area to build cold emulsion cameras. You will not want to miss hearing him.

Annual Banquet

Circle your calendar for Jan. 12, 1975 for the Banquet at Taix. Speaker, awards, prizes, fun. \$5.25.

Portable telescope

Tom Cave has volunteered to refinish our 8 inch scope and to find or locate a mount for it. Thanks Tom.

Warm Hearts

Somehow "thanks" is too small when applied to men like Tom Cave and Tom Cragg, who have given so much of themselves for you and I and the Society --- month after month, year after year for some 20 years. Lew Chilton remarked that the other societies must be jealous that the LAAS has men of this caliber. I like to think that this is true. Well Done, Tom and Tom.
