### GENERAL MEETING

This month's general meeting will feature slide presentations from several LAAS members. Topics will range from last May's Riverside Telescope Makers Conference to a private observatory one member built at his house.

This month also marks the time when the Griffith Observatory remains open on Monday nights, forcing the LAAS to meet elsewhere. The July and August meetings will therefore be held at the Department of Water and Power building, 111 n. Hope st., in downtown L.A., across the street from the music center. The meeting will be held in the auditorium. There is free parking in the DWP customer parking lot which is accessed from Hope st.  
(see map)
